ABOUT ME

Full-stack developer with 5 years of experience developing and maintaining responsive front-end websites with complex back-end servers, focusing on webshops, CRM's, and custom internal management software. Experienced with HTML, CSS and JS Frameworks, with knowledge of UX and user psychology, as well as debugging and testing. Open to learning new technologies and looking to continue my career in web development and related IT areas. Able to effectively self-manage during independent projects, as well as collaborate in a team setting, and lead others to function in a team
